Tire Science and Technology
Index to Volume 7
1979

Number	Month of Issue	Pages
1-2	Jan.-June	1-40
3-4	July-Dec.	41-92

A

Acoustics
  A note on patterns of wear within the tread area (Brenner and Kondo), Jan.-June, 3.
  Antiskid
    A selected review of winter driving aids (Williams), July-Dec., 58

B

Bauer, R.F.: *see* Dudley, E.A., Bauer, R.F., and Reilly, P.M.
Brenner, F.C. and Kondo, Akira: A note on patterns of wear within the tread area, Jan.-June, 3
  see also Ludwig, G.S. and Brenner, F.C.
Browne, A.L. and Wickliffe, L.E.: Rubber emissivity and the thermal state of tires. July-Dec., 71

C

Chains
  Winter driving aids (Williams), July-Dec., 58

D

Dudley, E.A., Bauer, R.F., and Reilly, P.M.: Prediction of tire tread wear rate and tread wear rate differences, July-Dec., 43

E

Emissivity
  Rubber emissivity and the thermal state of tires (Browne and Wickliffe), July-Dec., 71

G

Groove depth
  Automatic tread gaging machine (Ludwig and Brenner), Jan.-June, 31
  A note on patterns of wear within the tread area (Brenner and Kondo), Jan.-June, 3

K

Kondo, Akira: *see* Brenner, F.C. and Kondo, Akira

L

Laser instrument
  Automatic tread gaging machine (Ludwig and Brenner), Jan.-June, 31
Ludwig, G.S. and Brenner, F.C.: Automatic tread gaging machine, Jan.-June, 31

M

Measuring instruments
  Automatic tread gaging machine (Ludwig and Brenner), Jan.-June, 31
Mileage, projected
  Adequacy of linear models in tread life testing (Wright), Jan.-June, 14
  A note on patterns of wear within the tread area (Brenner and Kondo), Jan.-June, 3
  Prediction of tread wear rates and differences (Dudley, Bauer, and Reilly), July-Dec., 43
Models for tread wear
  Adequacy of linear models in tread life testing (Wright), Jan.-June, 14
  Prediction of tire tread wear rate and tread wear rate differences (Dudley, Bauer, and Reilly), July-Dec., 43
Mud
  A selected review of winter driving aids (Williams), July-Dec., 58

N

Nonlinear systems
Adequacy of linear models in tread life testing (Wright), Jan.-June, 14

P

Power spectral analyses
A note on patterns of wear within the tread area (Brenner and Kondo), Jan.-June, 3

R

Regression analysis
Adequacy of linear models in tread life testing (Wright), Jan.-June 14
A note on patterns of wear within the tread area (Brenner and Kondo), Jan.-June, 3
Prediction of tire tread wear rate and tread wear rate differences (Dudley, Bauer and Reilly), July-Dec., 43
Reilly, P.M.: *see* Dudley, E.A., Bauer, R.F., and Reilly, P.M.
Rubber
Rubber emissivity and the thermal state of tires (Browne and Wickliffe), July-Dec., 71

S

Snow
A selected review of winter driving aids (Williams), July-Dec., 58
Studs
A selected review of winter driving aids (Williams), July-Dec., 58

T

Temperature
Rubber emissivity and the thermal state of tires (Browne and Wickliffe), July-Dec., 71
Traction
A selected review of winter driving aids (Williams), July-Dec., 58
Tread wear
Automatic tread gaging machine (Ludwig and Brenner), Jan.-June, 31
Adequacy of linear models in tread life testing (Wright), Jan.-June, 14
Note on patterns of wear within the tread area (Brenner and Kondo), Jan-June, 3
Prediction of tire tread wear rate and tread wear rate differences (Dudley, Bauer, and Reilly), July-Dec., 43

W

Wickliffe, L.E.: *see* Browne, A.L. and Wickliffe, L.E.
Williams, Harry: A selected review of winter driving aids, July-Dec., 58
Wright, C.T.: Adequacy of linear models in tread life testing, Jan.-June, 14
